

## Lightning Arrestor Information

Use of a properly installed lightning arrestor **may** prevent damage to equipment in the event of a lightning strike. Data-Linc Group has not verified the efficiency of any particular device and therefore, does not recommend any specific brand. However, for your convenience, a few of the manufacturers of lightning arrestor devices is listed below:

- |  |  |
|--|--|
| 1. Polyphaser Corp.<br>PO Box 9000<br>Minden, NV 89423<br><br>Tel 775.782.2511<br>Tel 800.325.7170<br>Fax 775.782.4476<br><a href="http://www.polyphaser.com">www.polyphaser.com</a> | 2. East Coast Lightning Equipment, Inc.<br>24 Lanson Drive<br>Winstead, CT 06098<br><br>Tel 860.379.9072<br>Fax 860.379.2046<br><a href="http://www.eastcoastlightning.com">www.eastcoastlightning.com</a> |

**Caution:** Use of an antenna significantly increases the risk of a lightning strike which may cause equipment and facility damage, and injury to personnel. The use of a lightning arrestor may prevent such damage or injury. Users are urged to consult with qualified professionals regarding the risk of lightning strikes and prevention of loss or injury resulting from a lightning strike.
